## Hyundai Motor prepares to launch its next N model: the New i30 Fastback N

- Hyundai continues development of third model in high-performance N line-up
- Prototype testing includes performance and durability assessments at company's technical centre at Nürburgring
- The New i30 Fastback N will be unveiled later this year

**July 24, 2018-** Hyundai Motor is in the final stages of development of the next model to join its expanding range of high-performance cars wearing the N logo: the New i30 Fastback N.

Prototype testing is now well under way, including extensive assessments on a variety of road surfaces around Europe. Among the testing locations is the famous Nordschleife circuit at the Nürburgring in Germany, where Hyundai has its own technical centre. The track and the public roads around the region are among those used to evaluate performance and durability, helping to prepare what will be the third N model, after the five-door i30 N and the Veloster N.

Launched earlier this year, the i30 Fastback is a unique car — the only five-door coupe in its segment — which extends the successful i30 model range. The New i30 Fastback N will take this car to another level, enhancing the sophisticated design of the original model and combining this with the BPM-raising characteristics of its sibling five-door i30 N.

More information on the New i30 Fastback N will be announced later this year, closer to the time of its launch.

-Ends-

### About Hyundai Motor Europe

In 2017, Hyundai Motor achieved registrations of 523,258 vehicles in Europe – an increase of 3.5 per cent compared to 2016, growing stronger than the market. By mid-2018, Hyundai will have replaced 90 per cent of its model line-up to create the youngest car range in Europe. 85 per cent of the vehicles Hyundai sold in the region are models designed, engineered, tested and built in Europe to meet the needs of European customers, served by the company's extensive European infrastructure. This includes two factories in the Czech Republic and Turkey, which have a combined annual capacity of 600,000 units. Hyundai Motor sells cars in 31 European countries through 2,500 outlets.

Hyundai Motor offers its unique Five Year Unlimited Mileage Warranty package with all new cars sold in the region, providing customers with a five-year warranty with no mileage limit, five years of roadside assistance and five years of vehicle health checks.
